Professional Summary

Computer Science undergraduate with a strong interest in building and improving digital products by combining business understanding with technical knowledge. Experienced in analysing requirements, identifying user needs, mapping workflows, and translating complex problems into structured, actionable solutions. Brings a blend of analytical thinking, product understanding, and technical awareness to support informed decisions and deliver meaningful outcomes.

Skills

Product & Business: BRDs, PRDs, User Stories, Requirements Analysis, Product Roadmapping, Agile/Scrum, User Journey Mapping, Wireframing

Technical Skills: SQL (MySQL), Python, Java, HTML, CSS, JavaScript, PHP

Tools: Jira, Notion, MS Excel, Figma, Canva, GitHub, Google Colab

Soft Skills: Analytical Thinking, Problem Solving, Communication, Stakeholder Collaboration, Teamwork, Attention to Detail

Professional Experience

WaltCorp

Product Designer

- Designed user flows, wireframes and interface layouts in Figma, turning business requirements into clear, usable product screens.
- Collaborated with business and development teams to align designs with user needs, product goals and technical feasibility.
- Iterated on designs based on feedback and usability reviews to improve clarity and consistency across the product.

Freelance

Product Designer

- Worked with clients to understand their requirements and convert them into structured product scope, user flows and designs.
- Designed wireframes, prototypes and UI screens in Figma, delivering design projects end to end from brief to final handoff.
- Managed client communication, feedback rounds and revisions to deliver work that met business goals on schedule.

Projects

FraudNet-Synth

- Federated fraud-detection system enabling **4** simulated banks to train a shared model without sharing raw customer data.
- Achieved a federated F1 score of **0.796** $\pm$ **0.006** vs. **0.775** $\pm$ **0.028** for pooled centralized training.
- Added **3** governance controls: bank-specific data exports, role-based access and audit logging.

MentorConnect *Live Demo ↗*

- Mentorship marketplace serving **2** user personas, learners and mentors, with skill-based mentor discovery.
- Mapped **6** core journeys: discovery, session requests, scheduling, communication, reviews and dashboards.
- Built **3** trust safeguards: verified session reviews, double-booking prevention and secure account recovery.

IntervU *Live Demo ↗*

- AI voice interviewer offering role-based mock interviews in **2** languages, English and Hindi.
- Designed a **4**-stage practice loop: follow-up questions, answer evaluation, feedback reports and progress tracking.
- Focused on accessibility for non-native English speakers through bilingual voice-based practice.

Vayu AQI *Live Demo ↗*

- Air-quality platform combining **3** data layers: live AQI, forecasts and route-level exposure.
- Converts AQI data into actionable health recommendations and localized alerts for daily users.
- Supports multilingual access and privacy-conscious location handling.

Education

PES Institute of Technology and Management, Shivamogga 2023 – Present

B.E. in Computer Science and Engineering *CGPA: 8.6/10*

Army Public School, Ranchi 2022

Senior Secondary Education (PCM)
